A Sizzlin' Summer

Programming is in full Swing!

This past June we were treated with great weather and lots of sunshine! Our kiddos have been out soaking it up taking full advantage to practice their golf and life skills while having fun all summer long!

Summer programs have been full speed ahead as we've maintained approximately 75% student capacity for our camps, classes and play day events! A lot of beginners and first time players of the game were introduced to the program this year! It's amazing how you can already see their progression and the kids improving their golf and life skills each and everyday at our camps and nightly sessions.

We're ready for the rest of the summer so bring on the sunshine!
