Inclment Weather Policy

Lightning and severe weather are dangerous in Colorado. In an effort to better protect players, caddies, officials, and spectators, play will be suspended if necessary. One (1) prolonged blast of the air horn will signal suspension of play. At this time, players must evacuate the course, while others may seek shelter at the bathrooms on #4 and #13 tee, shelters on #8 and #17 tee, or between #1 and #10 bathrooms at the starter house.
