First Tee Network Summit

This month, First Tee - GVR is headed to the First Tee Network Summit! This 3 day event in Phoenix is filled with education sessions, networking opportunities, and fun activities. This summit brings together First Tee chapters from all around the world to collaborate, learn, and share ideas with one another. The goal is to leave coaches and chapters feeling inspired, empowered and motivated to continue our great work in Building Game Changers!

Guest Speakers

End of Year BBQ

Thank you to everyone for coming to the End of Year BBQ! It was another successful year of programming, and we appreciate all of you for continuing to bring your participants to First Tee - GVR!

Be on the lookout this winter for emails regarding winter programming!

Participant Corner

This past month, following the COGF Board of Trustees meeting and dinner at Cherry Hills Country Club, we had the privilege of hearing from Jack Clark, a remarkable participant in our First Tee program. While Jack has been recognized previously, his speech about his experience at the First Tee Leadership Summit in West Creek Ranch, MT truly captivated our board members. His insights and enthusiasm left a lasting impression on everyone in attendance. Here are his parting thoughts he shared with us:

“That brings me back to my main premise, perhaps engaging in new, uncharted territory or experiences that stretch the perceived comfort zone may prove beneficial to our lives. Engaging in the entirety of the trip was certainly something that was new, and did push my comfort zone, however, what came out of it was something remarkable. Lifelong memories and an experience I will certainly never forget. Perhaps we could apply the concept of trying out new things to our own lives and we may under the right circumstances, create impactful, and ever so lasting memories”

Donor Spotlight

LPGA Foundation

This month, we are thrilled to shine our Donor Spotlight on the LPGA Foundation, whose generous support has been fundamental in growing our LPGA*USGA Girls Golf program at First Tee – Green Valley Ranch. Since 2012, the LPGA Foundation has awarded us an incredible \$46,000 in grants to support this initiative, helping us provide a welcoming and empowering space for young girls to learn and love the game of golf.

The impact of these grants has been tremendous, allowing us to run a program that is consistently in high demand—our classes fill up every season! Through LPGA*USGA Girls Golf, participants build not only their golf skills but also confidence, leadership, and friendships that last beyond the course. By engaging in this program, young girls are introduced to a sport they may not have otherwise tried, and they are supported in ways that foster personal growth and self-belief.

We are immensely grateful to the LPGA Foundation for their commitment to the next generation of female golfers. Their contributions have empowered so many girls in our community, and we look forward to continuing this incredible partnership. Thank you, LPGA Foundation, for making a lasting difference in the lives of young athletes at First Tee – GVR!
